AFX IN THE CLASSROOM

Accelerated learning through motorsports

- **Developed in partnership with Kia America, Inaugural Advisory Partner & Official Automotive Partner**
- **AFX is the cornerstone program of Team STEAM Nation**, a 501c3 purposely developed to provide FREE resources to parents and educators driving our youth to actively explore STEAM (Science, Technology, Engineering, Arts & Math) education and career paths
- **Andretti FASTTRACK is the inspiration of Jeff Andretti**, a former Indy Car driver and son of racing legend Mario Andretti. With the addition of Indy Car driver Marco Andretti, Jeff's nephew, Andretti is proud to have 3 generations of the racing family supporting STEAM education

Andretti FASTTRACK Xperience (AFX) is an innovative way for students to learn STEAM concepts through the backdrop of motorsports and has been developed in partnership with Kia America. The program includes engaging videos and hands-on project based classroom activities aligned to national standards for ease of implementation into the classroom.

- **Video 1 & Lessons: "A Force to be Reckoned With"** - Newton's Laws of Motion
- **Video 2 & Lessons: "Power Up"** - Potential & Kinetic Energy and how engines work
- **Video 3 & Lessons: "Energy to Burn"** - How engines have changed - combustion to electric (coming in April)

Geared towards middle and high school students

Turnkey program includes educator guides, videos, and lesson plans

Aligned to Next Generation Science Standards.

Visit Kia.Andrettifx.org to view the videos and access the free curriculum lessons.

Inaugural Advisory Partner, Official Automotive Partner
